Botanical Name	Common Name	Size	Price
Achillea millefolium 'Cerise Queen' This fast growing yarrow has magenta flowers that bloom in spring and summer. Grows 18" to 24" in part to full sun.	Yarrow, Cerise Queen	1	A
Achillea millefolium 'Strawberry Seduction' Strawberry red blooms on a sturdy, compact yarrow! 18"- 20" tall.	Yarrow, Strawberry Seduction	1	B
Achillea tomentosa 'Golden Fleece' A groundcover yarrow that blooms bright yellow all summer long. Grows just 6 - 12 inches high!	Yarrow, groundcover	1	A
Achillea x 'Moonshine' A hybrid plant, this Yarrow is the best bright yellow representative in the family. One of its strengths is that it stays compact and upright. The blooms make excellent cut or dried flowers.	Yarrow, Moonshine	1	A
Achillea x 'Wonderful Wampee' A compact, colorful yarrow with soft green foliage and blooms that start out deep pink, then fade to white. A better 'Appleblossom'.	Yarrow, Wonderful Wampee	1	A
Adiantum pedatum A popular native fern that adds an airy, light texture to a woodland garden. 12" - 18" tall.	Maidenhair fern	1	C
Agastache rupestris This compact hyssop has sweetly scented foliage with rosy pink spikes that bloom in mid to late summer. Hummingbirds love it! Grows 12" to 18".	Hyssop, Sunset	1	B
Agastache x 'Blue Fortune' This Hyssop attracts both hummingbirds and butterflies. It's a long bloomer that is covered with dark blue flowers throughout the summer. It also has a distinct licorice scent when it is in bloom. Full sun.	Hyssop, Blue Fortune	1	A
Agastache x 'Firebird' Rich orange red spikes bloom throughout the summer for attract hummingbirds and butterflies. Does best in well drained soil. 2-3 feet tall.	Hyssop, Firebird	1	B
Ajania pacifica 'Silver and Gold' The silver-edged leaves of this mounding plant make it attractive all season long. Though it forms yellow flowers in the late fall it is normally grown for its foliage.	Ajania, Silver and Gold	1	A
Ajuga reptans 'Bronze Beauty' A rapid-growing perennial ground cover, excellent under trees and in rock gardens. It is rather informal, preferring freedom to spread on its own terms.	Bugle Weed, Bronze Beauty	1	A
Ajuga reptans 'Catlin's Giant' The largest Bugle Weed on the market, Catlin's Giant makes an excellent groundcover or accent plant. Bugle Weeds also work well in planters and containers.	Bugle Weed, Catlin's Giant	1	A
Alchemilla mollis This is an easy-to-grow ground cover with tiny clusters of yellow flowers that stand well above the leaves. The foliage holds its rich green color throughout the growing season.	Lady's Mantle	1	A
Amsonia x 'Blue Ice' The longest blooming Blue Star Flower available, this plant normally flowers for more than a month. It has a compact habit, and its foliage turns yellow in the fall.	Star Flower, Blue Ice	1	B
Anemone hup. 'September Charm' This plant produces shallow cup-shaped flowers in the fall when most other plants are declining. This trait makes it perfect for late season color in the perennial garden.	Windflower, September Charm	1	B
Anemone x hybrida 'Whirlwind' A white, fall blooming anemone, Whirlwind shows off big semi-double blooms August through October. Height 24-30 inches; prefers part sun/part shade.	Windflower, Whirlwind	1	B
Armeria maritima 'Splendens' This Armeria produces round pink flowers in the spring that resemble the bloom of Chives. Its foliage is fine and grass-like. Great for rock gardens and low borders.	Thrift, Splendens	1	A

Botanical Name	Common Name	Size	Price
Artemisia schmidtiana 'Silver Mound' This perennial favorite has compact domes of silver, delicate looking foliage. It has a tendency to look a little ragged by July, but if it is cut back it will flush out fresh new growth.	Silver Mound	1	A
Asclepias incarnata This plant attracts butterflies and beautifies the garden. It gets pink flowers during the summer and produces an ornamental seed pod in the fall.	Milkweed, Pink	1	A
Asclepias tuberosa An excellent flowering native plant. Brilliant orange flowers (which are attractive to butterflies) provide a dramatic addition to the garden. Once the roots are established this plant becomes very drought resistant.	Butterfly Weed	1	A
Aster oblongifolius 'October Skies' A tough Aster that thrives in sunny, well-drained areas. Its foliage is quite aromatic. The species is native to Pennsylvania.	Aster, October Skies	3	D
Astilbe chinensis 'Pumila' This Astilbe has low growing foliage topped with dense plumes of lavender-purple flowers. It works well as a groundcover in shaded, moist locations.	False Spirea, Pumila	1	A
Astilbe japonica 'Europa' The light pink flowers on this plant appear in the early summer. A moist and shady location will coax the best results from this plant.	False Spirea, Europa	3	E
Astilbe simplicifolia 'Sprite' The 1994 Perennial Plant of the Year, this is one of the best dwarf Astilbes available. Its tight clump-forming dark foliage is accented by pale pink flowers in the summer.	False Spirea, Sprite	1	B
Astilbe x arendsii (mixed) With attractive green foliage, Astilbe are a great addition to the garden. It gets wonderful plumes of flowers from June through August. Prefers part shade and moist soil. Grows 15" to 36" tall.	False Spirea, mixed	3	E
Astilbe x arendsii 'Bressingham Beauty' This Astilbe is another great plant from Bressingham. It is a strong bloomer that performs well in part shade.	False Spirea, Bressingham Beauty	3	E
Astilbe x arendsii 'Cattelya' Fragrant, orchid-pink plumes adorn this 3' tall plant. It blooms in spring and summer and likes part shade.	False Spirea, Cattelya	3	E
Astilbe x arendsii 'Diamond' An elegant plant, this Astilbe brings a compact form and graceful, narrow white plumes to the garden. It does best in partially shaded locations.	False Spirea, Diamond	3	E
Astilbe x arendsii 'Elizabeth Bloom' This cultivar has deep green foliage and beautiful pink flowers. It grows in part shade and can reach around 48" tall.	False Spirea, Elizabeth Bloom	3	E
Astilbe x arendsii 'Fanal' This plant boasts attractive foliage with unusual fluffy blood-red flower spikes. It works well as a border plant, but it can be used for almost anything in the garden.	False Spirea, Fanal	1	A
Astilbe x arendsii 'Snowdrift' Beautiful, pure white flowers are the signature of this Astilbe. Its blooms work exceptionally well as a cut flower. This plant is happiest in a moist, shaded area.	False Spirea, Snowdrift	1	A
Astilbe x arendsii 'Spartan' Known for its excellent foliage quality and dark red blooms, this cultivar is a great choice for the garden. It looks very similar to Fanal, but it normally grows one foot taller.	False Spirea, Spartan	1	A
Astilbe x 'Montgomery' This Astilbe shows its wine-red plumes in midsummer. Growing 20-24" tall, it is a beautiful perennial from spring until late fall and loves moisture.	False Spirea, Montgomery	1	B
Astilbe x rosea 'Peach Blossom' Peach Blossom is one of the largest Astilbes available, capable of reaching four feet in height. It is impressive when it is in bloom, the panicles of flowers are quite large.	False Spirea, Peach Blossom	1	A

Botanical Name	Common Name	Size	Price
Astilbe x thunbergii 'Ostrich Plume' This plant has arching pink flowers that create a weeping effect. It stands approximately three feet tall and has red flower stalks.	False Spirea, Ostrich Plume	3	E
Astilbe x 'Visions' This Chinese Astilbe is smaller than its relatives. It will reach a height of 14" and has interesting bronze green foliage with pink-purple flowers. The flowers are more upright and do better in part shade with moist soil.	False Spirea, Visions	1	B
Athyrium filix-femina This fern grows beautifully in bright shade and moist, rich soil. It looks great in perennial borders and woodlands. New fronds appear in spring and new leaves continue to show up throughout the season. Grows 24" to 36".	Lady Fern	1	C
Athyrium 'Ghost' What a unique fern! Silver white fronds add a ghostly mist to your shade garden. 18" - 24".	Ghost Fern	1	C
Athyrium 'Lady in Red' Bright green fronds stand out in spring, then form an upright fern with deep red stems. Thrives in damp, bright shade.	Lady Fern, red stemmed	1	C
Athyrium nipponicum 'Pictum' This fern has interesting shades of green, purple, and red on a gray-blue background foliage. Its color is more intense if the plant gets some direct sun, whether it be in morning or late afternoon. Grows 12" to 18".	Japanese Painted Fern, Pictum	1	C
Baptisia australis Spectacular blue flowers adorn this perennial in the early summer. This is one of the bluest garden plants available. Years ago its pigment was used as a dye, earning it the common name False Indigo.	Indigo, Blue False	1	A
Baptisia x 'Carolina Moonlight' Creamy yellow flowers compliment the blue green foliage of this wild indigo. Blooming in early summer, it will reach a height of 3' and add a splash of color to the garden. Grows in full to part sun.	Indigo, Carolina Moonlight	1	B
Baptisia x 'Screaming Yellow' Brilliant yellow-gold flowers with deep green foliage and compact, rounded habit.	False indigo, Screaming Yellow	1	B
Baptisia x 'Starlight Prairie Blues' Deep violet-purple flowers highlighted by a lemon-yellow keel.	False indigo, Prairie Blues	1	C
Belamcanda chinensis The Blackberry Lily looks like an Iris before it blooms. In the late summer it comes into its own when its brilliant orange flowers open. Following the flowers are distinctive seed pods that resemble large blackberries.	Lily, Blackberry	1	A
Bergenia cordifolia 'Pink Dragonfly' The undersides of this plants leaves look like pink dragonfly wings! Stunning red fall leaf color and bright pink blooms in mid spring. 12" - 16" tall.	Pigsqueak, Pink Dragonfly	1	C
Boltonia asteroides 'Nana' The normal complaint with Boltonia is that it tends to get too tall and then fall over. Well, this dwarf cultivar solves that problem. It stays short enough to support itself, which is a pleasant change for Boltonia.	Boltonia, Dwarf	1	A
Brunnera macrophylla The blooms on this plant are very similar to Forget-me-nots. The similarities end there, however, for the foliage and plant habit of Brunnera are far superior. This plant thrives in moist shaded locations.	Brunnera, Heartleaf	1	C
Brunnera variegata Similar to Brunnera macrophylla but with creamy-white variegated foliage.	Variegated Brunnera	1	D
Calamagrostis x acutiflora 'Karl Foerster' This grass has an upright growing habit. It has flowers that are an interesting shade of rosy violet in June which become golden in late summer and fall. Grows 4-5' tall and likes full sun. Won PPA Plant of the year in 2001.	Feather Reed Grass, Karl Foerster	1	B
Campanula 'Blue Waterfall' A low growing bellflower that will slowly creep or spill over walls or rocks, producing hundreds of star shaped blue flowers in June and July.	Bellflower, Blue Waterfall	1	B

Botanical Name	Common Name	Size	Price
Campanula carpatica 'Blue Clips' This is an easy-to-grow perennial that bears beautiful flowers. The growth habit of this plant is very compact and dense, and the violet-blue flowers are plentiful, making this plant stand out in any garden.	Bellflower, Blue Clips	1	A
Campanula carpatica 'White Clips' A compact Campanula, this plant produces an abundance of milky white flowers throughout the summer. 'White Clips' is considered by most gardeners to be the best dwarf white Campanula available.	Bellflower, White Clips	1	A
Campanula 'Cherry Bells' Long red bell shaped flowers on strong upright foliage. A spreading plant growing up to 2 feet.	Bellflower, Cherry Bells	1	A
Campanula glomerata 'Superba' Dazzling, brilliant purple flowers cover this perennial throughout the summer. It is an easy-to-grow plant and makes an excellent cut flower.	Bellflower, Superba	1	A
Campsis radicans This fast growing native vine can reach heights of 40'. It has bright green foliage and attracts hummingbirds with showy orange to orange-red trumpet-shaped flowers in mid-summer and fall. It thrives in full sun but can take some shade.	Trumpet vine	1	B
Carex 'Blue Zinger' A sedge with striking blue foliage that fountains gracefully and spreads slowly, forming a dense, weed blocking groundcover.	Sedge, Blue Zinger	1	B
Ceratostigma plumbaginoides This plant produces masses of vibrant blue flowers from late summer until late fall. It also gets a wonderful bronze foliage color in the fall. A well drained site is essential for this plant to thrive.	Leadwort	1	A
Chasmanthium latifolium This grass produces clumps of bamboo-like foliage. It is adorned with very interesting looking panicles of flat flower spikes that resembles oats. Grows 24-36" tall.	Northern Sea Oats	1	B
Chasmanthium latifolium 'River Mist' Attractive oat-like seed heads adorn this grass late summer through winter. Deep gold fall color; a good naturalizer for dry shade.	Northern Sea Oats, variegated	1	D
Chelone glabra Snapdragon-like white flowers are plentiful on this late season bloomer. Its upright growth habit makes it a good plant for the back of a border.	Turtlehead, White	1	A
Chelone lyonii 'Hot Lips' This Turtlehead produces brighter pink flowers than the species. Attractive red stems are also a bonus unique to this plant. It's a great perennial for late summer or fall blooms.	Turtlehead, Hot Lips	1	A
Chrysanthemum nipponicum Huge white flowers appear in masses in October. A real show stopper when planted in large groups. 2'-3' tall.	Nippon daisy	1	B
Clematis 'Elsa Spath' Also called 'Xerxes,' this Clematis is a spectacular performer. It has large 5-6 inch flowers that are present in the late spring and early summer.	Clematis, Elsa Spath	3	E
Clematis 'Hagley Hybrid' Also known as 'Pink Chiffon,' this plant blooms twice during the season. Its flowers are quite large. In the sun the flower will fade from dark to light pink.	Clematis, Hagley Hybrid	3	E
Clematis 'Niobe' An "almost true" red, this Clematis blooms during the summer. Some years it will bloom in the late spring as well. It quickly becomes a dramatic plant in the landscape.	Clematis, Niobe	3	E
Clematis 'The President' This Clematis lives up to its name. Its flowers are seven to eight inches across and hold their color well. The bloom time runs from June through September.	Clematis, The President	3	E
Convallaria majalis A hardy ground cover, this garden classic has richly fragrant bell-shaped flowers. It provides a nice 'natural' look to the garden, and is a low-maintenance plant.	Lily of the Valley	1	A

Botanical Name	Common Name	Size	Price
Coreopsis rosea 'American Dream' In 1993 this plant was named Plant of the Year in Holland. Since then it has gained popularity in the US. It is a vigorous summer bloomer that holds up better than the species.	Tickseed, American Dream	1	A
Coreopsis 'Sienna Sunset' Light, creamy orange flowers offer a look like no other coreopsis. Blooms all summer long and stands 15"-20" high. Finely textured foliage.	Tickseed, Sienna Sunset	1	B
Coreopsis verticillata 'Moonbeam' Moonbeam was named Perennial Plant of the Year in 1992. The soft yellow flowers and lacy foliage of this plant make it a garden favorite. It is one of our best sellers every year.	Tickseed, Moonbeam	1	A
Coreopsis verticillata 'Red Shift' This outstanding plant starts out yellow with a red center. As the flower ages, it becomes more red, becoming entirely red in fall. Grows 30-36" tall and likes sun.	Tickseed, Red Shift	1	B
Coreopsis 'Zagreb' A very dense plant, this perennial stays compact, and maintains a formal appearance. The blooms are a vibrant yellow, and contrast the green thread-like foliage nicely.	Tickseed, Zagreb	1	A
Dendranthema 'Cambodian Queen' This perennial has pink, single blooms with yellow centers in fall. Likes sun and grows 36" tall.	Hardy Garden Mum, Cambodian	1	B
Dendranthema x grandiflorum 'Sheffield Pink' This perennial gets a soft pink flower with a yellow center. It is very flexible, doing well in locations that are sunny, shady, wet, or dry. It is a very hardy mum.	Mum, Sheffield Pink	1	A
Dianthus grat. 'Firewitch' This plant is also known as 'Feuerhexe', but it often goes by its easier-to-remember English name. Its foliage is tinted blue, which contrasts its red flowers nicely.	Pinks, Firewitch	1	B
Dianthus grat. 'Pixie' This cultivar is an improved selection of Dianthus Spotti. Why is it improved? The foliage holds up better, re-blooming occurs faster, and it is called a "cleaner" plant.	Pinks, Pixie Cheddar	1	A
Dianthus grat. 'Spotti' This Dianthus produces fragrant small red flowers with white spots. A great low-growing species, it starts flowering in the spring. If it is prevented from going to seed the blooms will resume in the summer.	Pinks, Spotti Cheddar	1	A
Dianthus grat. 'Zing Rose Maiden' A long-flowering perennial that boasts brilliant pink flowers throughout the summer, this plant works well in almost any location. Cutting the plant back will encourage it to remain dense.	Pinks, Zing Rose Maiden	1	A
Dianthus x allwoodii 'Tiny Rubies' Tiny Rubies is quickly becoming popular due to its compact form. It produces double, deep pink flowers in the late spring. It will continue to flower if kept from going to seed.	Pinks, Tiny Rubies Cheddar	1	A
Dianthus x 'First Love' Noted for its tri-colored flowers, 'First Love' blooms three shades of pink all on one plant. 12"-18".	Pinks, First Love	1	A
Dianthus x 'Frosty Fire' A beautiful variety of Dianthus, 'Frosty Fire' gets showy double red flowers. Its foliage is a blue/grey color, which inspired its unique name. This plant will bloom off and on throughout the growing season.	Pinks, Frosty Fire Allwood	1	B
Dianthus x 'Spangled Star' One of the showiest dianthus out there. Deep magenta red blooms with white edges and spots on each petal. Blooms late spring/early summer; shear lightly for summer-long blooms. 8-12"	Pinks, Spangled Star	1	A
Dicentra eximia This clump forming perennial has nodding panicles of rose-pink flowers which hang over gray-green foliage that resemble ferns. It blooms May through early fall and is native. Grows 12-18" tall and likes sun to part shade.	Bleeding Heart, Fringed	1	B
Dicentra spectabilis This garden classic produces great heart-shaped flowers on arching stems. If it is not kept watered, the plant will go dormant in June, and remain that way until the following spring.	Bleeding Heart, Common	1	C

Botanical Name	Common Name	Size	Price
Dicentra spectabilis 'Alba' A beautiful spring plant, this old-fashioned favorite does well in a cool, moist location. During the summer the foliage will go dormant if it gets too dry, but the dormancy will not affect the next year's blooming.	Bleeding Heart, Alba	1	C
Dicentra x 'Luxuriant' This perennial provides brilliant cherry-red blooms throughout the summer. The foliage is fernlike, and blue/green in color. A very hardy plant, that is well-suited for any perennial garden.	Bleeding Heart, Luxuriant	1	C
Dracocephalum 'Blue Dragon' Blue snapdragon-like flowers cover this plant in early summer. It forms a low mound 12"-15" tall, and has rosemary like foliage; prefers good drainage.	Blue Dragon's Head	1	A
Dryopteris erythrosora This fern certainly gets its name due to its wonderful color. It has coppery new growth and pink fiddleheads, helping you remember how beautiful the trees will look in fall. Shiny, dark green leaves will last through winter. Grows 36" to 48".	Autumn Fern	1	C
Dryopteris marginalis This native fern is evergreen and forms a nice clump that does not spread. It likes part sun to full shade. Grows 12" to 18".	Eastern Wood Fern	1	C
Echinacea purpurea 'Kim's Knee-High' This plant has all the best traits of Purple Coneflowers, yet it blooms longer and remains more compact. It was Holland's Perennial Plant of the Year in 2000.	Coneflower, Kim's Knee-High	1	B
Echinacea purpurea 'Ruby Star' This Purple Coneflower produces flowers with petals that are more horizontal, making the flowers appear larger than the species. It makes an exceptional cut flower, both with and without its petals.	Coneflower, Ruby Star Purple	1	A
Echinacea x 'Big Sky Harvest Moon' This hybrid is heavily branched with large squash colored flowers. It likes sun to part shade and will grow to 30".	Coneflower, Big Sky Harvest Moon	1	C
Echinacea x 'Big Sky Sunrise' This plant is a chip off the Echinacea paradoxa block. Plant in full sun for best results. Makes a great cut flower. Will grow 24"-36".	Coneflower, Big Sky Sunrise	1	B
Echinacea x 'Hot Lava' Strong stems hold up flowers with wide flaming magma colored petals.	Coneflower, Hot Lava	1	D
Echinacea x 'Pink Double Delight' Small button cone matures to a fluffy gumdrop shape with short flat skirt of petals. Early bloom; compact form.	Coneflower, Pink Double Delight	1	D
Eryngium 'Blue Hobbit' A dwarf sea holly, Blue Hobbit only grows to a foot tall, and prefers sunny, well drained sites.	Sea holly, Blue Hobbit	1	B
Euonymus fortunei 'Coloratus' This semi-evergreen groundcover has interest year round. It has handsome, shiny, deep green foliage that catches your eye. If people don't notice it, they will in fall because it turns a beautiful deep purple and red! It grows 12" to 24" tall and spread 6	Wintercreeper, Coloratus	1	A
Eupatorium dubium 'Little Joe' This cultivar resembles Gateway Joe Pye Weed with one major difference: it's two to three feet shorter. Now it's possible to put a Joe Pye Weed in your landscape that's not huge.	Joe Pye Weed, Little	1	A
Eupatorium maculatum 'Gateway' It's hard to believe a five foot perennial could be called a dwarf, but this Joe Pye Weed falls into that category. The species reaches seven feet in height, and is rather intimidating in the garden. Check out Little Joe if you want a smaller dwarf.	Joe Pye Weed, Gateway	1	A
Eupatorium dubium 'Baby Joe' The smallest Joe Pye weed out there, Baby Joe grows 24" - 30". How cute!	Joe Pye Weed, Baby	1	B
Filipendula purpurea 'Elegans' Interesting foliage and flowers, this plant is very under planted. Establishes very well in wet locations.	Meadowsweet, Elegans	1	B

Botanical Name	Common Name	Size	Price
Fragaria x 'Pink Panda' This plant, from the 'Blooms of Bressingham' collection, is an outstanding ornamental groundcover. It produces attractive small pink flowers all season, and quickly covers areas in the garden.	Strawberry, Pink Panda Ornamental	1	A
Frageria 'Lipstick' An ornamental strawberry with dark green foliage and deep rose red flowers appearing in April to June. Vigorous groundcover.	Ornamental Strawberry plant	1	B
Gaillardia x 'Arizona Sun' This Blanket flower has a compact habit and many blooms. It has red-orange flowers edged in bright yellow. This is a drought tolerant plant that grows 8-12" tall and has a long blooming period.	Blanket Flower, Arizona Sun	1	B
Gaillardia x 'Fanfare' Flowers look like little red trumpets flaring to yellow bursts of color from a center cone.	Blanket Flower, Fanfare	1	B
Gaillardia x 'Georgia Sunset' 2" brilliant gold and orange bicolor blossoms on a compact plant.	Blanket Flower, Georgia Sunset	1	B
Geranium 'Biokovo' This is a very underused plant in the landscape. It produces white flowers that are tinged pink, complimented by red sepals. The foliage is aromatic.	Geranium, Biokovo	1	B
Geranium 'Blue Sunrise' Silvery blue flowers stand out against colorful foliage. Leave emerge golden orange then turn green as they mature. 16", compact, blooms spring-frost.	Geranium, Blue Sunrise	1	D
Geranium 'Cinereum Ballerina' Ice pink flowers with maroon veins, very showy! 6" tall, blooms all summer long.	Geranium, Ballerina	1	D
Geranium sanguineum This is a great groundcover. It has reddish purple to dark pink flowers and grows 12" to 18" in full sun to part shade.	Geranium, groundcover	1	A
Geranium sanguineum 'Max Frei' This is a great compact groundcover. It will take sun and part shade and has reddish purple flowers during summer. Grows 10-15" tall.	Geranium, Max Frei	1	B
Geranium x 'Rozanne' Arguably the best perennial Geranium on the market. It blooms extensively and holds up well. A member of the Blooms of Bressingham series. It won Perennial Plant of the year in 2008.	Geranium, Rozanne	1	C
Geum 'Cooky' Bright orange blooms in May and June light up the garden! 10-12", compact.	Avens, Cooky	1	A
Geum 'Flames of Passion' Deep orange red blooms cover this geum in late spring/early summer. 10"-15" tall.	Avens, Flames of Passion	1	B
Hakonechloa aureola This grass has bright lime-green foliage. Growing to 12", and has a cascading appearance. It is shade tolerant and spreads by stolons, but is not invasive. It turns a beautiful pinkish red in the fall and bronze in winter. Does not like full sun.	Hakone Grass	1	D
Hakonechloa aureola 'Nicholas' A green leaved hakone grass that turns yellow, orange, and red in the fall.	Hakone Grass, Nicholas	1	D
Helictotrichon sempervirens 'Saphirsprudel' This grass has a wider blade than the straight species and shows off its strong blue foliage. It grows 12" to 18".	Sapphire Fountain	1	B
Hemerocallis 'Cherry Cheeks' The flowers on this daylily are very attractive. They are vibrant pink with a paler pink line running down the petals with a tropical orange throat. They bloom in summer and fall and grow 24" to 30" tall.	Daylily, Cherry Cheeks	1	C

Botanical Name	Common Name	Size	Price
Hemerocallis 'D'Oro Starter Collection' A sister plant to the 'Stella D'Oro' with ruby colored blooms.	Daylily, Stella Supreme, Purple, D'oro,	1	C
Hemerocallis 'Happy Returns' This Daylily blooms for the entire summer! Its compact size makes it great for the front of perennial borders. It has been our top selling Daylily three years running.	Daylily, Happy Returns Everblooming	1	B
Hemerocallis 'Little Business' Small flowered daylily with rose-raspberry flowers that have darker veining and chartreuse throats.	Daylily, Little Business	1	C
Hemerocallis 'Pandora's Box' This daylily has white flowers with a rich red and bright yellow center. It grows 24" to 26" tall.	Daylily, Pandora's Box	1	B
Hemerocallis 'Stella D'Oro' Arguably the most popular Daylily available, this plant produces numerous dainty golden-yellow flowers in a relatively long blooming season. It is excellent for massing or border plantings.	Daylily, Stella D'Oro Re-Bloomin	1	A
Hemerocallis 'Strawberry Candy' This daylily has strawberry pink flowers with darker centers with a golden-green throat. Grows 26" tall and flowers begin to bloom mid-summer	Daylily, Strawberry Candy	1	C
Heuchera 'Can Can' This Heuchera has excellent foliage. Metallic silver overlays on light purple, ruffled leaves. It is a compact plant, growing to 9" and likes sun to part shade conditions.	Coral Bells, Can Can	1	C
Heuchera 'Lipstick' Reblooming lipstick red flowers on mounds of silver-veiled green leaves	Coral Bells, Lipstick	1	D
Heuchera macrorhiza 'Dale's Strain' A spectacular foliage plant, this Coral Bell is one of the best. Selected by Dale Hendricks of North Creek Nursery. Highly recommended for shade gardens.	Coral Bells, Dale's Strain	1	A
Heuchera micrantha 'Palace Purple' This plant is grown for its beautiful, dark foliage. The wispy white flowers that form can be tolerated, yet many gardeners remove them so the foliage can be appreciated.	Coral Bells, Palace Purple	1	A
Heuchera 'Peach Flambe' Bright peach-colored leaves that turn to plum in winter with white flowers in spring.	Coral Bells, Peach Flambe	1	D
Heuchera 'Silver Scrolls' This Coral Bell has beautiful silver foliage veined and edged in crimson. It has a neat, compact habit, and is a vigorous grower. We've sold out of this cultivar the past three years.	Coral Bells, Silver Scrolls	1	B
Heuchera villosa 'Caramel' One hot Heuchera - and we mean it. This Heuchera is bred for hot, humid summers. Its apricot colored leaves turn a burnt Carmel-red later in the season, and its pinkish white blooms appear in mid-late summer.	Coral Bells, Caramel	1	D
Heuchera villosa f. purpurea 'Bronze Wave' This is a native fall blooming shade groundcover. It has shiny deep purple foliage and grows to form an 18" clump with spikes of small creamy white flowers in September and October.	Coral Bells, Bronze Wave	1	C
Heuchera villosa macrorrhiza 'Autumn Bride' Chartreuse to lime green foliage, blooms pure white in September. Tolerant of dry shade. One of the best of the "Bride" Coral Bells.	Coral Bells, Autumn Bride	1	B
Heuchera villosa 'Tiramisu' This is a unique plant to add to the garden. It has yellow foliage with red veining in the spring. The leaves turn brick red in the fall. Grows 7-12".	Coral Bells, Tiramisu	1	D
Heucherella 'Dayglow Pink' Hundreds of brilliant pink flower stalks over bright green leaves cut with a chocolate inlay.	Coral Bells, Dayglow Pink	1	D

Botanical Name	Common Name	Size	Price
Iberis sempervirens 'Snowflake' A small, dense plant, this perennial flowers early in the spring. It makes a wonderful edging plant, and holds its shape well. The flowers are snowy white, and compliment surrounding plants nicely.	Candytuft, Snowflake	1	A
Inula ensifolia A clump-forming perennial, this plant has small lance shaped leaves and bears many yellow daisy-like flower heads. It's curse is that it looks a bit like a dandelion, which most gardeners do not find attractive. Upon closer examination the flower is very	Inula, Sunray	1	A
Iris sibirica 'Butter and Sugar' One of the shortest Iris plants available, this perennial gets a large yellow flower. Its compact, short nature makes it well suited for tight areas in the garden.	Iris, Butter and Sugar Siberian	1	B
Iris sibirica 'Caesar's Brother' This is a beautiful dark purple Iris. The bloom appears almost velvet-like in the spring and is a deep shade of purple. When the plant is not flowering the foliage provides tufts of medium green color.	Iris, Caesar's Brother Siberian	1	B
Iris sibirica 'Ruffled Velvet' Like all Siberian Irises, Ruffled Velvet blooms prolifically, resists problems, and isn't as messy as most other Irises. This is the first year we have grown Ruffled Velvet, but in our previous experiences we've never met a Siberian Iris we didn't like.	Iris, Ruffled Velvet Siberian	1	A
Iris sibirica 'Snow Queen' This iris has beautiful white hinted with yellow blooms in July-August. It grows 18-24" and loves full sun.	Iris, Snow Queen	1	B
Juncus 'Frenzy' A variegated corkscrew rush that will give your garden a unique TWIST! Prefers moist soils, can be grown partially submerged in water.	Spiral Rush, Frenzy	1	B
Kalimeris incisa 'Blue Star' A popular plant in Europe, Kalimeris is starting to attract a following in the US. It is a summer blooming plant that has small daisy flowers that have a yellow center and pale blue petals.	Kalimeris, Blue Star	1	B
Kalimeris integrifolia A member of the aster family, this perennials single, small daisy like flowers stand out in masses all summer long. They are a very easy plant to grow and will tolerate heat and humidity with the best of them. Grows 2'.	Kalimeris, Japanese false aster	1	A
Kalimeris integrifolia An easy to care for variegated variety of Kalimeris. Single, small, pale purple-white flowers bloom in summer with little maintenance required. Can tolerate partial shade.	Kalimeris, variegated	3	D
Knautia mac. 'Mars Midget' With deep red flowers, this dwarf-sized cultivar blooms early summer to autumn with little maintenance. Reaches a height of 24".	Knautia, Mars Midget	1	B
Lamiastrum This is a vigorous spreader! It grows anywhere and makes a wonderful ground cover. The hardiness and aggressive nature of this plant can cause it to become invasive in some settings.	Archangel, Variegated Yellow	1	A
Lamium maculatum 'Beacon Silver' A vigorous ground cover that will grow in almost any condition, this plant not only has pretty pink flowers but also attractive silver foliage. It has been one of our top sellers for the past two years.	DeadNettle, Beacon Silver Spotted	1	A
Lamium maculatum 'Purple Dragon' Green and silver shiny, variegated foliage. Purple blooms, 4"-8" tall.	Dead Nettle, Purple Dragon	1	A
Lamium maculatum 'Shell Pink' The attractive variegated foliage of this plant makes it a nice choice as a ground cover. It prefers evenly moist soil in part shade.	Dead Nettle, Shell Pink Spotted	1	A
Lavandin x intermedia 'Grosso' This plant is excellent for butterflies with deep violet blue flowers that are highly fragrant. It blooms heavily most of the summer. Grows 12".	Lavender, Grosso	1	A
Lavandin x 'Provence' Provence is a hybrid Lavender that is considered one of the better cultivars for the north. It has long flower stems and good flower quality. Its foliage is silvery green and is quite fragrant. Grows to 30".	Lavender, Provence	1	A

Botanical Name	Common Name	Size	Price
Lavandula angustifolia 'Blue Cushion' A very compact plant, this Lavender is a dwarf variety. It flowers throughout the summer and makes an exceptional garden plant.	Lavender, Blue Cushion	1	B
Lavandula x 'Aromatica Blue' Deep blue fragrant flower spikes bloom over silver-grey foliage.	Lavender, Aromatic Blue	1	B
Leucanthemum x 'Snow Lady' A dwarf Shasta daisy, this has white blooms early to late summer and grows 10-12".	Leucanthemum, Snow Lady	1	B
Liatris spicata A lovely native plant, this Gayfeather is a butterfly magnet in the garden. It gets long, showy, purple spikes during the summer.	Gayfeather	1	A
Liatris spicata 'Kobold' Growing to a height of 18-24", this will add interest to the garden with rosy purple flower spikes and fine, shiny, dark green foliage that bloom in August and September. Clay and drought tolerant.	Gayfeather, Kobold	1	A
Ligularia dentata 'Desdemona' An orange blooming ligularia with large daisy-like flowers and green-purple foliage. 36"-40" tall, blooms July and August. Likes moist soils.	Golden groundsel	1	B
Ligularia stenocephala 'Little Rocket' A dwarf cultivar of 'The Rocket', this ligularia only reaches 36-40" tall. Yellow blooms July and August.	Ligularia dwarf, Little Rocket	1	E
Lilium 'Pink Pixie' Dwarf Asiatic lily with large, upfacing pink trumpet flowers that have a yellow throat.	Lily, Pink Pixie	1	A
Lilium 'Stargazer' Probably the most popular Oriental Lily available, this plant has many uses. It can be grown in containers or gardens. It is very fragrant when in bloom.	Lily, Stargazer	1	A
Liriope muscari 'Big Blue' A popular Grass-like ground cover, this perennial produces violet flowers in the summer, followed by black berries in the fall. This species is clump forming.	Lily Turf, Big Blue	1	A
Liriope muscari 'Monroe White' A tough plant, this perennial will grow in either sun or shade. It gets creamy white flowers in the summer. It is an evergreen plant, but may suffer some foliage damage in hard winters.	Lily Turf, Monroe White	1	A
Liriope muscari 'Variegata' A very popular variegated Liriope. The foliage is the main attraction, but violet flowers provide an interesting contrast in late summer. It is often used as a ground cover. This species is clump forming.	Lily Turf, Variegated	1	A
Lobelia cardinalis This native plant likes moist soil and broken sunlight. It produces tall spikes of bright crimson flowers that are certain to draw attention. It has a tendency to lose vigor over time.	Cardinal Flower	1	A
Lobelia cardinalis 'Fried Green Tomatoes' A cultivar of the native strain of cardinal flower, this plant has darker, purplish foliage and grows very vigorously. A great native plant for hummingbirds. 30"-36" tall.	Cardinal Flower, Fried Green Toma-	1	B
Lonicera 'John Clayton' A yellow blooming native honeysuckle, this plant blooms June until frost. 3' - 6' tall.	Honeysuckle vine, John Clayton	1	D
Lonicera 'Major Wheeler' A longer blooming version of our native corla honeysuckle, this plant draws in hummingbirds with its flowers in spring. Will continue to bloom throughout summer and grows to a height of 3-6'.	Honeysuckle vine, Major Wheeler	1	D
Lychnis arkwrighti 'Orange Gnome' A dwarf lychnis that won't flop or stop blooming! An abundance of early summer orange-scarlet blooms on a compact plant with dark green almost purplish foliage. 10"-15" tall.	Dwarf Maltese Cross	1	B

Botanical Name	Common Name	Size	Price
Matteuccia struthiopteris A popular, tall fern that grows 3-4 feet tall! Looks great around a pond's edge.	Ostrich Fern	1	C
Mazus reptans This is a tough and rugged groundcover that will thrive almost anywhere. It will grow over, under, or through just about anything. Good drainage is required for it to survive the winter.	Mazus, Blue	1	A
Miscanthus purpurescens Nothing catches your attention like a burst of ruby red and burgundy in the landscape. Autumn brings out the best in this plant - it's red fall foliage.	Red leaved miscanthus	1	B
Miscanthus sinensis 'Gold Bar' This is a shorter upright growing form of porcupine grass. It catches the eye with intense golden yellow banding on its foliage. Grows 36".	Maiden Grass, Gold Bar	1	D
Miscanthus sinensis 'Gracillimus' This maiden grass got its cultivar name because of its graceful, rounded form and delicate narrow foliage. It has beautiful copper-red blooms in October. Grows 7'.	Maiden Grass, Gracillimus	1	E
Miscanthus sinensis 'Graziella' This cultivar has green foliage that is fine and narrow. Its form is more upright and arching than 'Gracillimus' and its blooms are taller than its foliage. In fall, foliage turns reddish-orange. Will reach 5'-7'.	Maiden Grass, Graziella	1	E
Miscanthus sinensis 'Little Kitten' This smaller miscanthus forms a mound of green foliage. Its plumes appear in late summer and fall. Grows 12"-36".	Dwarf Maiden Grass, Little Kitten	1	C
Miscanthus sinensis 'Morning Light' This compact grower has a finer texture. It has reddish-bronze blooms in October. It has variegated foliage that looks like it's shimmering in the wind. Grows 3' to 5'.	Variegated Maiden Grass, Morning	1	C
Miscanthus strictus A classic, yellow and green variegated grass, very large and upright. Grows 7-9 feet tall.	Porcupine Grass	1	C
Monarda didyma 'Blue Stocking' This perennial is as easy-to-grow as they come. It thrives in sunny, dry locations. Cutting the plant back to the ground in late summer allows it to regenerate.	Bee Balm, Blue Stocking	1	A
Monarda didyma 'Jacob Cline' This Bee Balm produces large four inch red flowers atop its scented foliage. This variety is one of the most mildew resistant.	Bee Balm, Jacob Cline	1	A
Monarda didyma 'Petite Delight' A well-behaved Bee-Balm, this plant has moderate powdery mildew resistance. The foliage is dark green and shiny. Like its name suggests, this plant is a dwarf.	Bee Balm, Petite Delight	1	A
Monarda x 'Raspberry Wine' A beautiful Monarda with clear wine red flowers from June to August. Shows some powdery mildew resistance, which is very good considering how susceptible Bee balm plants normally are.	Bee Balm, Raspberry Wine	1	A
Nepeta subsessilis This Catmint is a butterfly magnet in the garden. Its flowers are blue and last throughout the summer. It looks more like a Lobelia than a Nepeta.	Catmint, Blue	1	A
Nepeta x faassenii 'Dropmoore' The gray/green leaves of this plant work well in blending other plants together. The blooms last all summer if spent flowers are removed. For the past three years it has been one of our top sellers.	Catmint, Dropmoore	1	A
Nepeta x faassenii 'Six Hills Giant' A tall Catmint, this plant will bloom throughout the growing season. It does well in sunny areas, and it is drought and heat resistant.	Catmint, Six Hills Giant	1	A
Nepeta x faassenii 'Walker's Low' This plant is just about as tough as they get. It's a long bloomer and a consistent performer. In addition to all that, it also is normally avoided by deer. It gets its name from an English garden.	Catmint, Walker's Low	1	A

Botanical Name	Common Name	Size	Price
Nipponanthemum nipponicum This plant looks like a giant Shasta Daisy, but it flowers very late in the season. It does well in full sun and well-drained soil. Its foliage is very dark and shiny.	Daisy, Montauk	1	A
Oenothera fruticosa A fast spreading groundcover that produces masses of bright yellow flowers. Be prepared for this plant to take over if it is not kept in check.	Sundrops	1	A
Oenothera miss. 'Missouri Primrose' This plant has large yellow flowers that open in the evening and show into the next day. After the flowers fade, they are followed by unusual winged seed pods.	Primrose, Missouri	1	A
Origanum laevigatum 'Herrenhausen' Butterflies love this plant! The reddish purple foliage is attractive all season long, darkening in the fall. Though it is related to many culinary herbs it is an ornamental plant and has little culinary use.	Oregano, Herrenhausen Ornamental	1	A
Osmunda cinnamomea This fern is easy to grow and very eye-catching. It has cinnamon colored spore-bearing fronds surrounded by arching green foliage. It is clump-forming and is found along stream banks so it prefers a little moister soil. Grows 3' to 5'.	Cinnamon Fern	1	C
Panicum virgatum 'Northwind' This is a very strong grower with upright form. It has a wider foliage that is steel-blue in color. Grows 7'.	Switch Grass, Northwind	1	C
Pennisetum alopecuroides 'Hameln' This is a great grass for mass planting. It has a neat compact habit. It seed heads appear in July and turn a creamy tan as they mature. Grows 24" to 36".	Compact Fountain Grass, Hameln	1	B
Pennisetum alopecuroides 'Little Bunny' This little mounded grass has foxtail flowers that reach 2". This plant looks good in rock gardens and along ponds. Grows 10" to 12".	Miniature Fountain Grass, Little Bunny	1	B
Pennisetum alopecuroides 'Moudry' This grass has a upright habit with dark green, glossy foliage. Outstanding purple-black bottlebrush plumes stand out on stiff stems in late fall. Grows 24" to 36".	Black Fountain Grass	1	B
Pennisetum alopecuroides 'Piglet' Piglet' is sized in between 'Little Bunny' and 'Hameln', and at 15"-18" is a perfect fit for mixed beds.	Compact Fountain Grass, Piglet	1	B
Pennisetum orientale 'Karley Rose' A dark pink flowering fountain grass with airy, yet neat foliage. A soft burst of color in late summer. 2-3 feet tall.	Oriental grass, Karley Rose	1	C
Penstemon 'Red Rocks' Vibrant deep pink-red flowers adorn this drought tolerant plant from all summer. Great for hummingbirds! 12" - 18" tall.	Bearded Tongue, Red Rocks	1	A
Penstemon virgatus 'Sunburst Amethyst' A Mexican-American hybrid, this beard's tongue sports rich purple snapdragon-like flowers all summer. Likes good drainage and grows to 30" tall.	Bearded Tongue, Sunburst Amethyst	1	B
Perovskia x atriplicifolia 'Filigran' A cut leaf, lacy Russian sage, this variety is somewhat more compact, and just as deer resistant as its cousins. Grows to 36" tall and long blooming deep violet flowers.	Sage, Cutleaf Russian	1	A
Perovskia x atriplicifolia 'Little Spires' A dwarf Russian Sage, this little spire is not supposed to top two feet in height. Sounds too good to be true, but it should remain more compact than typical Russian Sage plants.	Sage, Dwarf Russian	1	A
Phlox divardica 'Manita' A native spring blooming phlox, can be used as a gentle groundcover or to accent shady areas with smoky white blooms with a hint of purple. 10"-12" tall.	Phlox, Manita woodland	1	A
Phlox paniculata 'Bright Eyes' This plant is an old favorite in the cut flower garden. Its blooms are large and two-tone pink. It is moderately powdery mildew resistant.	Phlox, Bright Eyes Garden	1	A

Botanical Name	Common Name	Size	Price
Phlox paniculata 'David' The Perennial Plant of the Year in 2002. David provides a delightful splash of snowy-white in the garden. Considered the best white Phlox available by most experts, this plant is highly mildew resistant.	Phlox, David Garden	1	A
Phlox paniculata 'Katherine' A tall garden phlox sporting lavender flowers with white centers. High mildew resistance.	Phlox, Katherine Garden	1	A
Phlox paniculata 'Laura' This Phlox is an upright dwarf plant that gets a purple flower with a white eye. It makes a great garden plant and requires no staking.	Phlox, Laura Garden	1	B
Phlox paniculata 'Lord Clayton' A cherry red phlox that blooms late June - September! Dark purplish-green foliage. 2-3 feet.	Phlox, Lord Clayton	1	B
Phlox paniculata 'Nicky' A mildew resistant Garden Phlox, Nicky is a reliable bloomer that holds up well into the summer.	Phlox, Nicky Garden	1	B
Phlox paniculata 'Shortwood' A plant with local connections, Shortwood is named for the gardens of Stephanie Cohen. It has the best powdery mildew resistance of the Garden Phlox, and is an excellent cultivar.	Phlox, Shortwood Garden	1	B
Phlox paniculata 'Shortwood' A plant with local connections, Shortwood is named for the gardens of Stephanie Cohen. It has the best powdery mildew resistance of the Garden Phlox, and is an excellent cultivar.	Phlox, Shortwood Garden	3	E
Phlox s. Chatahoochee' This phlox has blue flowers with magenta centers that bloom in late spring. It loves shade and will grow 10" to 12".	Phlox, Chatahoochee	1	A
Phlox stolonifera 'Blue Ridge' This creeping phlox has beautiful blue flowers with yellow centers. It blooms in early spring over a mat of foliage. It is great for a native shade garden and is very drought tolerant. Grows 6" to 10".	Phlox, Blue Ridge	1	A
Phlox stolonifera 'Clouds of Perfume' A wonderful woodland phlox with clean, dark vinca-like foliage and light lavender blooms. A great shady walkway plant that will treat your guests with a sweet perfume in early summer. 6" - 8" tall	Phlox, Clouds of Perfume	1	B
Phlox sub. 'Scarlet Flame' Bright crimson pink flowers smother this groundcover phlox in spring. Like sunny spots with good drainage. 4"-6"	Phlox, Scarlet Flame	1	A
Phlox subulata 'Emerald Blue' A plant suitable for hot and dry rock gardens, you can enjoy deep violet flowers on this low growing phlox in the spring. 4"-6"	Phlox, Emerald Blue creeping	1	A
Physostegia virginiana 'Red Beauty' While the buds of this cultivar are red, hence the name Red Beauty, the flowers are still very lavender. This plant is a vigorous grower, take heed. In the right place it's a wonderful plant, in the wrong spot it's a menace.	Obedient Plant, Red Beauty	1	B
Platycodon 'Sentimental Blue' Sentimental Blue is considered the best Balloon Flower cultivar because it is more disease and pest resistant than its counterparts. It is a great late-summer bloomer for the garden.	Balloon Flower, Sentimental Blue	1	A
Polemonium reptans 'Stairway to Heaven' A compact variegated Jacob's Ladder, this plant is truly unique and adds interest with its foliage as well as its blue late spring flowers.	Jacob's Ladder, Stairway to Heaven	1	C
Polygonatum odoratum The long graceful stalks of this plant are very attractive in moist shady locations.	Solomon's Seal	1	B
Polygonatum odoratum 'Variegatum' With variegated foliage, this Solomon's Seal make a statement in a shady or partly shady area. It has white fragrant flowers in the spring and grows 18" to 36" tall.	Solomon's Seal, Variegatum	1	C

Botanical Name	Common Name	Size	Price
Polygonum aubertii This fast growing vine has white flowers in summer. It grows 10' to 40' in sun or part shade.	Silver Lace Vine	3	D
Polystichum acrostichoides This fern is an evergreen in our region with lustrous green leaves. It has a neat habit and goes wonderfully with spring-blooming bulbs. Grows 12" - 18".	Christmas Fern	1	C
Polystichum polybleperum This fern has shiny deep green leaves that grow from coppery, fuzzy stems. Likes part shade to shade and grows 12" to 18".	Tassel Fern	1	C
Porteranthus trifolius 'Pink Profusion' A little known native plant that is also hard to find, its pink airy flowers give you a dainty, delicate look in the garden during early summer. 24"-30" tall.	Pink Bowman's Root	1	B
Potentilla nepalensis 'Miss Wilmott' A clump forming perennial with strawberry-like leaves, this plant has numerous branching stems carrying cherry red flowers. It is rather wild looking.	Cinquefoil, Miss Wilmott	1	A
Pulmonaria sac. 'Mrs. Moon' This plant's foliage is its drawing card. The leaves are silver and mottled with color. Pink flowers add to the plant's appearance in the spring.	Lungwort, Mrs. Moon	1	B
Rudbeckia 'Early Bird Gold' A somewhat more compact version of 'Goldsturm' with smaller leaves and an earlier bloom time, so flowers last longer! 24" - 30"	Black Eyed Susan, Early Bird Gold	1	A
Rudbeckia fulgida 'Goldsturm' The 1999 Perennial Plant of the Year. This is an easy-to-grow plant, with golden yellow black-eyed daisies on branching upright stems. It makes an excellent cut flower and is a very long bloomer.	Black-Eyed Susan, Goldsturm	1	A
Rudbeckia hirta 'Denver Daisy' Denver, CO.'s official flower, you too can enjoy these huge, sunflower/daisy like blooms in late summer!	Denver daisy	1	A
Sagina subulata This plant forms a dense mat of mossy green foliage. It makes an interesting ground cover and looks great growing between patio stones.	Moss, Irish	1	A
Salvia nemorosa 'Caradonna' A reliable Meadow Sage, Caradonna has blooms that look similar to May Night. It is taller than that cultivar, however. Removing spent flowers will prolong the blooming period of this perennial.	Sage, Caradonna Meadow	1	A
Salvia nemorosa 'Marcus' Dwarf plants are very popular, and this particular dwarf seems to be destined for greatness. It is essentially a smaller form of its award-winning cousin May Night.	Sage, Marcus Meadow	1	A
Salvia nemorosa 'May Night' The 1997 Perennial Plant of the Year. It produces violet-blue flower spikes on top of sturdy, compact plants. A favorite of many gardeners because of its toughness. Removing spent flowers will encourage re-blooming.	Sage, May Night Meadow	1	A
Salvia 'Snow Hill' This white salvia has a compact growing habit and is problem free. Will rebloom when cut back in July. Grows 18-30" and is very drought tolerant.	Salvia, Snow Hill	1	A
Salvia x 'Eveline' A bi-colored salvia! Light pink with dark pink centers give this salvia a look like no other. 18" - 30" tall.	Salvia, Eveline	1	B
Scabiosa columbaria 'Butterfly Blue' The Perennial Plant of the Year in 2000. A profuse bloomer with a neat compact habit, butterflies love this plant. This plant is a profuse bloomer when the spent flowers are removed.	Pincushion Flower, Butterfly Blue	1	A
Scutellaria ovata A good choice for dry shade, this native has an attractive metallic sheen to its leaves, keeping your shade garden entertained when its not covered in small purple flowers in early summer. 18" tall.	Skullcap	1	B

Botanical Name	Common Name	Size	Price
Sedum caudicicola 'Lidakense' Lidakense is a very compact Stonecrop. It makes a great ground cover in hot sunny locations.	Stonecrop, Lidakense	1	A
Sedum hispanicum A cute, small sedum that resembles mini star shaped sea urchins. Great for pots, nooks and crannies, or an attractive groundcover for small sunny areas. 2" tall.	Sedum, hispanic	1	A
Sedum 'Matrona' This is an upright sedum that has blue/maroon foliage and large flower heads. It is a very dependable plant, tough and rugged.	Stonecrop, Matrona	1	A
Sedum 'Neon' This Sedum has deep rose pink with round thick flower clusters. Vibrant contrast between flower and foliage. Grows to 18".	Sedum, Neon	1	A
Sedum rupestre 'Angelina' Chartreuse needle-like foliage stands out on this quick spreading groundcover. Yellow flowers in mid summer. In fall, the foliage changes to beautiful shades of orange and red. Grows 6-10".	Sedum, Angelina	1	B
Sedum rupestre 'Blue Spruce' With needle-like blue-green foliage, this is an evergreen, deer resistant sedum. Grows 4-6" tall, and spreads 24".	Sedum, Blue Spruce	1	B
Sedum spurium 'Fuldaglut' The red-orange foliage on this low growing groundcover is great in rock gardens or in the front of borders. Excellent for hot, dry locations.	Stonecrop, Fuldaglut	1	A
Sedum spurium 'Red Carpet' An evergreen sedum that holds its red color year round, try this as a border or groundcover for a sunny dry area. 3"-4" tall.	Stonecrop, Red Carpet	1	A
Sedum x 'Autumn Fire' A new and improved version of Autumn Joy Sedum. This cultivar maintains its flower quality for a longer period of time. Excellent as a specimen or mass planting.	Stonecrop, Autumn Fire	1	A
Sedum x 'Brilliant' This plant has a compact growing habit with rosy pink flowers and bright gray-green foliage. Grows 12-24".	Sedum, Brilliant	1	A
Sedum x 'Voodoo' This spreading sedum has burgundy foliage and bright rose-red flowers. It grows 4-6" tall and is evergreen in warmer climates.	Sedum, Voodoo	1	A
Sedum 'Xenox' A dark leaved sedum that grows darker with the summer's heat. Rosy pink blooms in August. 12" - 14".	Stonecrop, Xenox	1	B
Sempervivum Chicks Mix A classic succulent plant for just about any sunny, well drained spot. Plant them anywhere you can truck them into, even walls!	Hens and Chicks, mixed	1	B
Solidago 'Little Lemon' A dwarf, compact goldenrod that won't fall or flop like its larger parent plant. Yellow blooms in late summer on this native that grows 12" - 18" tall. Good rain garden plant.	Goldenrod, Little Lemon	1	A
Sorghastrum nutans A favorite grass of ours that looks far better in a landscape than a pot, the color display this grass puts on in late summer/early fall is comparable to none. Bluish green foliage with golden plumes reaching 3-4 feet.	Indian grass	1	B
Stachys byzantina 'Silky Fleece' A groundcover lamb's ear that has tiny, soft silvery leaves, and small lavender blooms in midsummer. Super cute because it only grows 2" tall!	Lamb's Ear, dwarf	1	A
Stachys monieri 'Hummelo' This large-leaved perennial has thick, hairy, silver foliage, and gets purple flowers during the summer. Also called Stachys 'Helen von Stein'.	Lamb's Ear, Humello	1	A

Botanical Name	Common Name	Size	Price
Stachys 'Silver Carpet' This cultivar has smaller leaves and a finer texture. Silky hairs make it look silvery in appearance. Loves hot, dry locations and will grow 12".	Lamb's Ear, Silver Carpet	1	A
Stokesia laevis 'Peachie's Pick' This plant has clear blue flowers with a compact growing habit. Grows 12-24" and is a great addition to the garden.	Stoke's Aster, Peachie's Pick	1	B
Symphotrichum ericoides f. prostratum 'Snow' This low, dense, groundcover that has single white flowers with gold centers in September. It is a strong grower that likes sun to part shade and grows 6-8" tall.	Heath Aster, Snow Flurry	1	A
Thymus x citriodorus The low-growing habit of this plant makes it great for use between stepping stones, where the foliage will be brushed against and its fragrance released. Needs good drainage.	Thyme, Lemon	1	A
Tiarella cordifolia 'Brandywine' Another Tiarella in the "river" series, Brandywine boasts glossy green leaves with excellent bronze fall color. Clump forming, semi-creeping. 8"-10".	Foamflower, Brandywine	1	C
Tiarella cordifolia 'Octoraro' This groundcover has pretty mauve-pink buds in the beginning of spring that turn to a creamy light pink when they bloom. Grows 4-6" in part to full shade.	Foamflower, Octoraro	1	C
Tiarella cordifolia 'Running Tapestry' The 2-3" wide heart shaped leaves have red venation making this an interesting plant even when not in bloom.	Foamflower, Running Tapestry	1	B
Tiarella cordifolia var. collina 'Wherry's' This foamflower is clump-forming and longer blooming than the species. It likes shade and part shade. Will grow 10"-12".	Foamflower, Wherry's	1	A
Tiarella 'Oakleaf' This shade-loving plant has evergreen foliage and gets beautiful white flowers in the spring. It does best in a moist, shaded location.	Foamflower, Oakleaf	1	A
Tiarella 'Springwood' Pumpkin orange fall color and multitudes of fuzzy white flowers in spring are two great attributes of this mounding Tiarella. 8"-10" tall.	Foamflower, Springwood	1	B
Tiarella x 'Elizabeth Oliver' A heavy bloomer with a light honey fragrance, this plant is a must have in the shade garden for spring blooms, and summer and fall/winter foliage. No disappointments here! Clump forming, 8"-10".	Foamflower, Elizabeth Oliver	1	C
Tradescantia 'Red Grape' This spiderwort has amazing gray-green foliage with bright red violet flowers that bloom from June to September. This vigorous plant grows to 24".	Spiderwort, Red Grape	1	A
Tradescantia x andersoniana 'Bilberry Ice' This easy-to-grow plant gets white and lavender flowers during the summer. Its foliage remains neat and presentable throughout the dry months.	Spiderwort, Bilberry Ice	1	B
Tradescantia x andersoniana 'Sweet Kate' This plant is definitely eye-catching. Its foliage is bright yellow, which contrasts nicely with its violet flowers. Like all Spiderworts this plant is very tough and will grow in almost any location.	Spiderwort, Sweet Kate	1	B
Vernonia noveboracensis This native does well in moist locations. It has deep purple flowers and grows 4' to 7'.	New York Ironweed	1	B
Veronica peduncularis 'Georgia Blue' This Speedwell grows 6" and produces sky blue flowers in April and May. It is an excellent groundcover and loves full sun.	Speedwell, Georgia Blue	1	B
Veronica 'Red Fox' One of the easiest perennials to grow, this veronica gives you bright pink flower spikes throughout most of the summer. Low maintenance and very tough. 4"-8".	Speedwell, Red Fox	1	A

Botanical Name	Common Name	Size	Price
Veronica x 'Waterperry' This plant is a real creeper. It is well-suited as a filler in open areas in perennial borders and gardens.	Speedwell, Waterperry	1	A
Veronicastrum virginicum 'Alba' An elegant plant, this close relation to Veronica can reach the height of six feet if grown in full sun. It generally maintains its shape, so it is well-behaved in a border.	Culver's Root, White	1	A
Vinca minor This evergreen groundcover has lavender-blue flowers on dark green foliage. Can take sun or shade and blooms in the spring.	Periwinkle	1	A
Viola 'Etain' This pansy has large lemon yellow flowers edged in dark lavender. It sends out many blooms throughout summer, but more so in spring and fall. Grows to 6-8".	Violet, Etain	1	B
